James White Joins IpX as Principal Digital Transformation Strategist

DENVER, Colorado, 25 February 2019 — The Institute for Process Excellence (IpX) is thrilled to announce that James White has joined IpX as Principal Digital Transformation Strategist. James has more than 30 years of experience in product lifecycle management (PLM), additive manufacturing (AM), computer-aided technologies (CAx), and global business process transformation within the industries of Hi-Tech, medical device, automotive, aerospace, heavy industrial, consumer packaged goods, petroleum, and software.

James brings to IpX a wide experience of roles in areas including product management, sales, strategic alliances, net profit interest, product complexity reduction, large scale PLM design and implementation, and business transformation consulting as well as an education in Engineering and Marketing & Business.

With a focus on digital transformation of systems, data, and processes in industry, James will support IpX by leading digital transformation projects using the True North Enterprise Calibration model to ensure successful implementations of enterprise systems such as PLM, and end-to-end AM. Please help us welcome James to the IpX family.

About IpX

IpX's education sector is the premier worldwide industrial resource for configuration management, systems engineering, operational excellence, digital transformation and high-performance culture training with courses offered in seven languages. IpX is best known for the creation of the industry changing CM2 certification program initiated in 1986. Today, CM2 is the global industry standard for enterprise configuration and change management.

IpX's global services sector ensures their clients achieve enterprise excellence through a unique combination of industry leading application strategies coupled with business engagement experts that provide needed enthusiasm for change by infusing the mission throughout the enterprise. IpX provides the True North for value add business transformation. IpX is the leader in organizational strategies that effectively integrate the people, processes, systems, and data of the organization.
