IpX – the Institute for Process Excellence Approved as Registered Education Provider by Project Management Institute

Denver, CO, USA – November 6, 2019 – IpX – the Institute for Process Excellence today announces that the Project Management Institute (PMI), the world's largest project management member association, has named it as a Registered Education Provider (R.E.P.) effective October 28, 2019. R.E.P.s are organizations that have been approved by PMI to help project managers achieve and maintain the Project Management Professional (PMP)[®], Program Management Professional (PgMP)[®] and other PMI professional credentials. These organizations have met PMI's rigorous quality criteria for course content, instructor qualification, and instructional design.

Project managers are increasingly turning to R.E.P.s for certification training and maintenance, especially since global median salaries for the profession now exceed \$81,000 (USD). IpX has provided workforce development courses since 1986 and is best known for their CM2 training and certifications, the global industry standard for change and configuration management. The CM2 methodology underlines that change and configuration management extends beyond design information to include all requirements for the enterprise, plus your product, service, and solution deliverables throughout your business lifecycle phases.

IpX President Joseph Anderson commented on the approval, "The mission of IpX is to provide the True North for our industry clients to achieve their transformation strategy, improve their core business operating model, embrace the digital wave, maximize efficiency, and implement sustainable growth initiatives. The relationship with PMI will foster a full suite of workforce educational services built upon a foundation of industry experience. This will allow PMI and IpX industry clients to efficiently and effectively solve the issues affecting global businesses."

IpX joins more than 1,500 R.E.P.s in more than 80 countries. These organizations include commercial training providers, academic institutions, and corporate training departments within corporations and government agencies.

About IpX – the Institute for Process Excellence

IpX helps companies transform, thrive, and sustain through our Workforce Academy and our True North Enterprise Calibration™ Model. We partner with organizations to develop and implement new processes and ways of working, and ultimately achieve step-change performance. The True North model offers a guide to decision making, managing the disruptive aspects of change, and reducing risk by means of inclusive engagement with key stakeholders at all levels.
