IpX Welcomes Maxime Gravel as Director of Model Based Enterprise

DENVER, Colorado, 12 August 2019 — The Institute for Process Excellence (IpX) is excited to announce that as of August 12, 2019, Maxime Gravel has joined as Director of Model Based Enterprise. Maxime brings 20 years of experience in the aerospace industry. Prior to joining IpX, Maxime was Head of Configuration and Change Management at Gulfstream Aerospace. While holding positions as designer, systems engineer and configuration manager on various new aircraft and sustaining programs, Maxime has acquired in-depth knowledge of engineering, enterprise wide processes and data management throughout the product lifecycle.

In the past 12 years, Maxime has led multiple cross functional teams to define and implement model based design across the enterprise using the CM2 model as backbone. Maxime holds a bachelor's and master's degree in Aerospace Engineering and has earned a CM2-Professional certification. Maxime is also a member of the IPX Global Congress and Industry 4.0 committee.

About IpX

IpX's education sector is the premier worldwide industrial resource for configuration management, systems engineering, operational excellence, digital transformation and high-performance culture training with courses offered in seven languages. IpX is best known for the creation of the industry changing CM2 certification program initiated in 1986. Today, CM2 is the global industry standard for enterprise configuration and change management.

IpX's global services sector ensures their clients achieve enterprise excellence through the revolutionary True North Enterprise Calibration™ model and services. Our business engagement experts provide needed enthusiasm for change by infusing the mission throughout the enterprise and connecting leadership with its staff. IpX is the leader in organizational strategies that effectively integrate the people, processes, systems, and data of the organization.
