FOR IMMEDIATE RELEASE

Thomas Miller Joins IpX as Director of Enterprise Systems and Processes

DENVER, Colorado, 22 June 2021 — The Institute for Process Excellence (IpX) is pleased to announce that as of May 24, 2021, Thomas Miller has joined the IpX team as Director of Enterprise Systems and Processes.

Thomas brings more than 14 years of experience in enterprise systems, business processes, IT/Cyber Security, and software development within the aerospace, automotive and manufacturing industries. Prior to joining IpX, Thomas developed data management systems and change management processes for global organizations. Thomas has instituted global data security models that cover multi-country intellectual property, government security, and export control requirements. He brings experience in software systems architecture, requirements management, and data security. Thomas holds a bachelor's degree in Computer Graphics Technology with an applied area of manufacturing, a Six Sigma Black Belt for the North American region, and a CM2-Comprehensive certification.

About IpX

IpX's education sector is the premier worldwide industrial resource for configuration management, systems engineering, operational excellence, digital transformation, and high-performance culture training with courses offered in seven languages. Today, IpX is the global industry standard for the model-based enterprise. IpX's Envision RISE (Respect through Inclusion, Service, and Equity) is an evolutionary diversity and inclusion platform.

IpX's global services sector ensures their clients achieve enterprise excellence through the revolutionary True North Enterprise Calibration™ model and services. Our business engagement experts provide needed enthusiasm for change by infusing the mission throughout the enterprise and connecting leadership with its staff. IpX is the leader in organizational strategies that effectively integrate the people, processes, systems, and data of the organization.
